Making Rooms Comfortable. — There are a great many houses magnificently furnished, but comparatively few which succeed in combining comfort with splendor. Many of the most expensively furnished rooms here are totally destitute of the latter essential, are surrendered to a cold, gaunt finery, exquisitely depressing.

DRUM of drawing room. Let there be ben Fire Company; stemighth of five

feet arounderses—reel by members in unif the plenty of chr. their truck. Let the walls be hung with pro.... l'ut vases of flowers here and there. Leta sman table with judiciously straddling legs, and a happy turn for recovering its balance when it gets knocks which will send an ordinary small

table over, be forever in reach of an easy chair. Let the small table always carry after dusk an antique silver candlestick, of Queen Anne's or George the First's time, if possible-modern plate is generally inferior to that from 1600 to 1750-holding a huge wax candle. Let every chair be low, the seat very long-this, for men at least, gives rest-and, whatever else you neglect, do not omit to have the hind legs of your chair shorter than those in front. Have foot-stools lurking in corners, not where they will be stambled over. In Winter let a glorious wood fire blaze on the hearth. Don't let your room be too tidy or too untidy. A writing table near a window. Good pens, sharp pen-knives, nice paper. Keep an eye on the thermometer. Allow no loud ticking clock in the room. Let a delightful, ingratiating-man-nered dog-who, as Widiam III, said of Godolphine, is never in the way and never out of the way, never commits a breach of canine decorum and is ever ready to reciprocate caresses-lie on the soft, thick hearth rug. Fill this room with pleasant people as often as possible.

Here are a few hints for the retorm of those chambers of ghastly splendor to which we have alluded, and which at present are as cheerful as the long gallery at the Chesney Wood. -N. Y.

NEWSPAPERS IN JAPAN. - The Mikado of Japan has promulgated an edict in reference to the newspaper press of his country. It appears that there are a number of journals published in the larger cities. There are two recognized classes-story papers, read chiefly by children and girls; and newspapers proper, managed with skill and talent, and wielding much influence. Recently some journals on the style of our low police papers made their appearance. This was the cause of the Mikado's edict, which ordered the prompt suppression of these obscene periodicals, and laid down certain rules for the control of the others. There is to be one Government organ, devoted entirely to the promulgation of official orders and news, and without any editorials. The story papers are to be responsible for the publication of any immoralities, but otherwise are entirely independent. The regular journalists are free to print what they will, with one curious exception: The semi-sacred nature of the Mikado's position is to shield him from any severe criticism, and the nearness of the Prime Minister to the Throne is to protect him also. Any one else, however, may be criticised at will, and the journalists of Japan are said not to be sparing of their censure. The circulation of the press is almost entirely in the cities, as the agricultural population take little or no interest in politics, and are, many of them, exceedingly ignorant. The embassy now in this country is said to be much pleased with the different agricultural papers here, and to have decided to establish one or more of them on its return in order to these obligations. return, in order to encourage the spread of intelligence among the farming classes, and to make it to their interest to learn to read and write, so that they can obtain the valuable information that such papers, ably edited, can give.—Chicago Tribune.

CHILDREN. - Give children an abundance of out door exercise fun and frolic; make them regular in their habits, and feed them only on plain, nourishing food, and they will seldom complain of a lack of a appetite. But keep them over tasked in school, confined closely to the house the rest of the time, frowning down any attempt at play; feed them upon rich or high seasoned food, candies, nuts, etc., allow them to eat between meals and late in the evening, and you need not expect them to have good appetites. On the contrary, you may expect they will be pale, weak and sickly.

Don't cram them with food when they don't need it, or have no appetite-this course is slow murder. If they have no appetite entake exercise in the open air. Don't allow MUSICAL INSTRUMENTS. them to study too much, and especially keep them from reading the exciting literature which so much abounds in our bookstores and circulating libraries. In addition to securing exercise for children as above, change their diet somewhat; especially if they have been eating tine flour, change to coarse or Graham flour. Sickness is the most expensive thing on the

face of the globe. There may be instances where it makes people or children better, but generally it makes them selfish, sad, misanthropic, nervous, mean and miserable. An important means of keeping children happy and good is to keep them well .- Journal of Chemistry.

REMEDY FOR PAINFUL WOUNDS.-Take a pan or shovel with burning coals and sprinkle upon them common brown sugar, and, hold the wounded part in the smoke. In a few minutes the pain will be allayed and recovery proceeds rapidly. In my own case a rusty nail had made a bad wound in the bottom of my foot. The pain and nervous irritation was severe. This was all removed by holding it in the smoke for fifteen minutes, and I was able to resume my reading in comfort. We have often recommended it to others with like results. Last week one of my men had a finger nail torn out by a pair of ice tongs. It became very painful, as was to have been expected. Held in sugar smoke for twenty minutes, the pain ceased, and it promises speedy recovery,

feb 9-1w VINCENT COLYER. SINGER FAMILY SEWING MACHINES.

The demand for this favorite SEWING MA-CHINE is still increasing, and the great number sold in this city during the past year is without precedent. The machine is question is simple, compact, durable and beautiful, and is beyond doubt less liable to get out of order than any machine claiming public attention, and can be operated by a child. The sales of this machine since its introduction have steadily increased, leaving all competitors far behind. This fact alone is a proof of its superior merits over all other machines. Over one hundred and fifty in daily use in this city, giving universal satisfaction. For references examine my books and judge for yourself. Machines sold on the most liberal terms, and satisfaction guaranteed in every case.

This distressing Affection—which renders life miserable and marriage impossible—is the penalty paid by the victims of improper in dulg encies. Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue. Now, who that understands the subject will pretend to deny that the natural powers are lost sooner by those falling into improper habits than by the prudent? Besides being deprived of the pleasure of healthy ing into improper habits than by the prudent? Besides being deprived of the pleasure of healthy offspring, the most serious and destructive symptoms of both body and mind arise. The system becomes deranged, the Physical and Mental Functions weakened. TAKE PARTICULAR NOTICE. Dr. J. addresses all those who have injured themselves by improper indulgence and solitary habits, which ruin both body and mind, unfitting them for either business, study, society or mar-

Reflect that a sound mind and body are the most necessary requisites to promote connubial happiness, Indeed, without these the journey through life becomes a weary pilgrimage, the prospect hourly darkens to the view, the mind becomes shadowed with despair, and filled with the melancholy reflection that the happiness of another is blighted with our own.

When e misguided and imprudent votary of pleasur: inds that he has imbibed the seeds of this pain .ul disease, it too often happens that an ill-times ense of shame or dread of discovery de-ters him from applying to those who, from educators min from applying to those with, from education and respectability, can alone befriend him, delaying till the constitutional symptoms of this horrid disease makes their appearance, such as ulcerated sore throat, diseased nose, nocturnal pains in the head and limbs, dimness of sight, deafness, nodes on the shin bones and arms, blotches on the head, face and extremities, progressing with frightful rapidity, till at last the palate of the mouth or the bones of the

nose fall in, and the victim of this awful disease

becomes a horrid object of commisseration till death puts a period to his dreadful suffering, by sending him to that undiscovered country "from whence no traveller returns." It is a melancholy fact that thousands DIE victims to this terrible disease, through falling into the hands of ignorant or unskilful PRE-TENDERS, who, by the use of that deadly Poison, Mercury, &c., destroy the consitution, and incapable of curing, keep the unhappy sufferer month after month taking their noxious injurious compounds, and instead of being restored to a renewal of Life, Vigorand Happiness in despair leave him with ruined Health to sigh over his galling disappointment.
